Bring Your Own Meeting

Laptops can be presented through software client or plugging a Button, while smartphones and tablets connect via mobile App or screen mirroring.

No Apps Casting

No need to install any 3rd party apps on personal device. Easily start screen mirroring by Airplay, Chromecast, and Miracast.
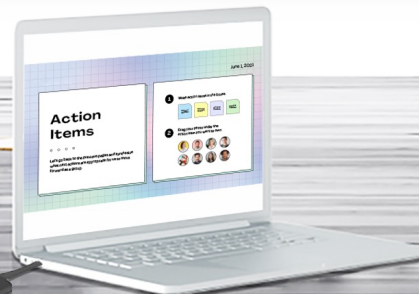

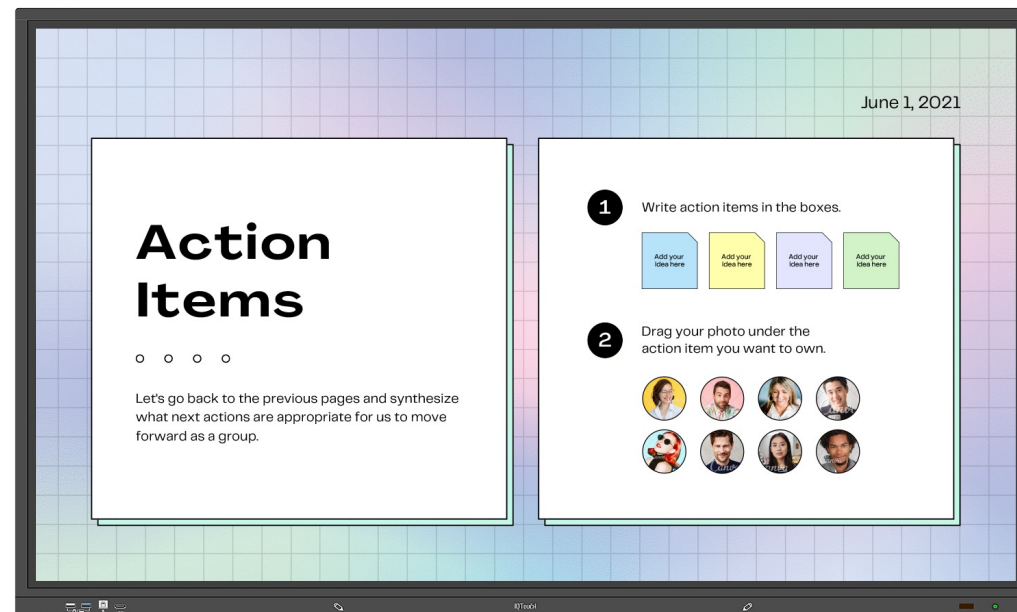

Any Presentation Display

No matter there is a projector, TV or touch screen in your boardroom, as long as the display is with HDMI input, just plug and play to go wireless.

Multi-System Compatibility

VERTEX

* 4K UHD Screen Mirror

Upgraded 4K UHD screen share, making it possible to enjoy a clearer vision and more details on the office display.

VERTEX

IQShare Operating System

Based on the Android 9.0 deeply customized wireless presentation system, screen sharing operation becomes simpler. With the annotation, whiteboard, reverse control, and other interactive collaboration functions supported, you would not be interrupted while coming up with some new inspiration. Greatly improve the efficiency of decision-making in the meeting.
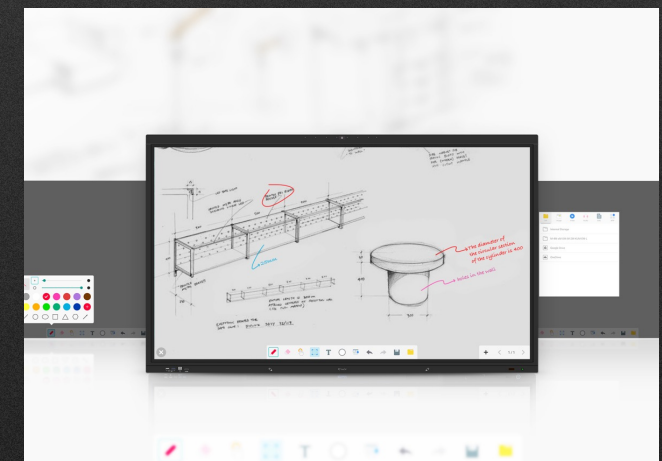

Two Themes

Classic Theme & Business Theme

Annotate Anytime And Anywhere

Freely annotate the content shared by the group on the large screen.

Whiteboard Writing

All tools provided on the whiteboard bring you an interactive meeting.

VERTEX

Wireless, Wide-range, Stable Transmission

With dual-band 2.4G & 5G wifi, IQShare WP40 supports 35m transmission distance with low latency, which can be used for any size of conference rooms. The long-lasting stability of screen sharing also allows you to smoothly show the ideas without being disrupted.
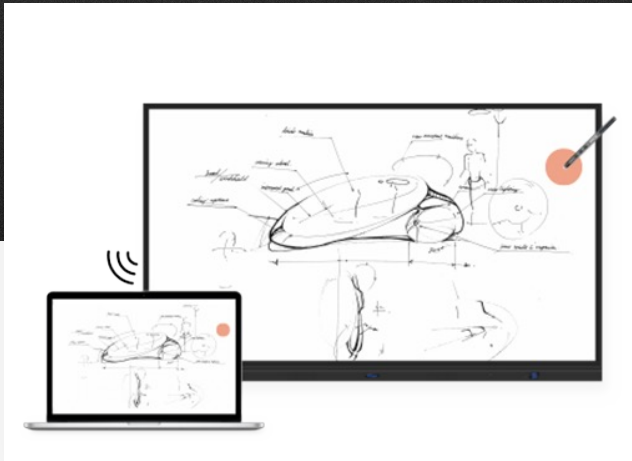

VERTEX®

Two-way Screen Share & Control

Wirelessly share the screen content on your personal device to the office display, and the rest of the team can see from both the office display and their own devices.

VERTEX®

Touch back control

Presenters can directly control the mobile devices and make annotations on the large screen, all the operations are synchronized to display in screen sharing.

Smart control on office display

Use mobile phone or laptop to realize air mouse, remote control, keyboard and other functions, everyone can easily control the office display at their seat.
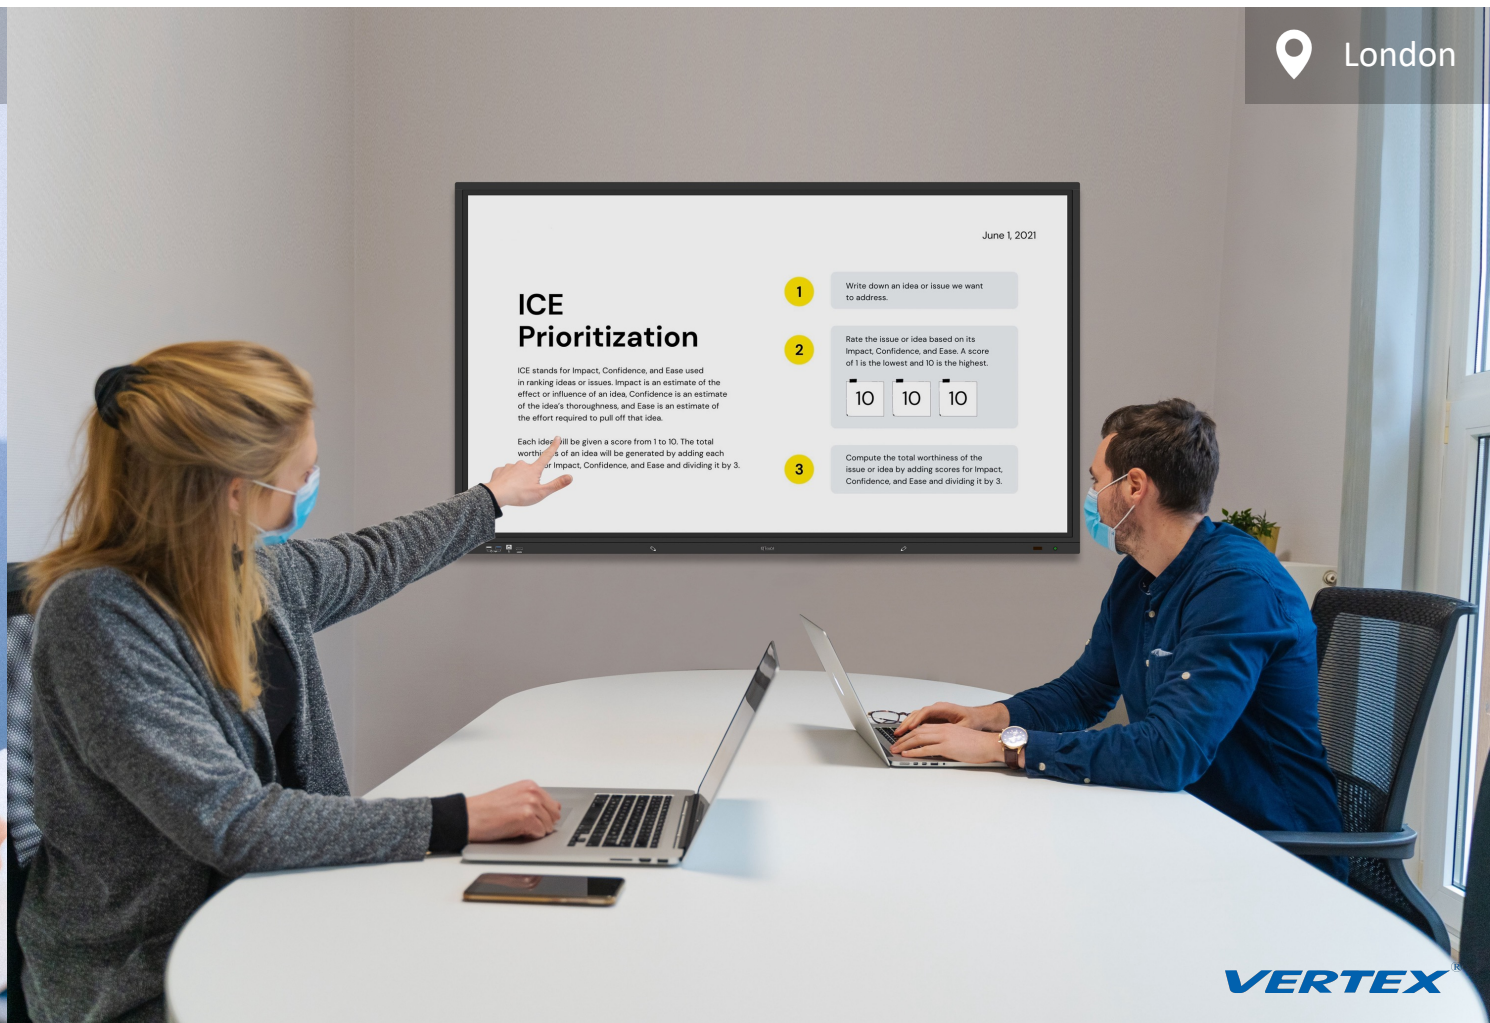

Mobile visualizer

Use the camera on your mobile phone or tablet as a temporary visualizer to shoot real objects or documents, which can be presented wirelessly on the large screen during the meeting.

VERTEX®

Remote Screen Sharing in Different Spaces

Remotely share the screen content of your personal mobile device to the large screen across network segments. That means you can collaborate in the different places with no requirement of the same LAN.

Give Everyone A World Showing The Ideas

Multiple split screens make it possible to share various ideas on one display simultaneously. Give the group a world full of creativity, which stimulates brainstorming and team discussion.
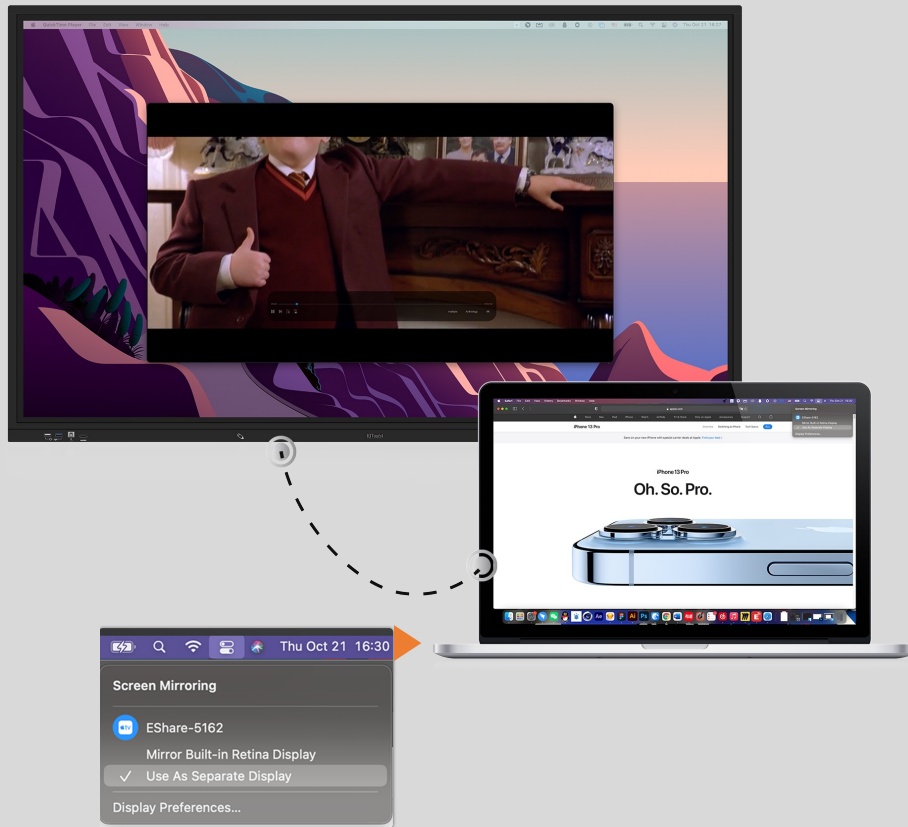

At the same time

- More than 32 users can be connected
- Max 8 buttons connected
- 4-split screen displayed
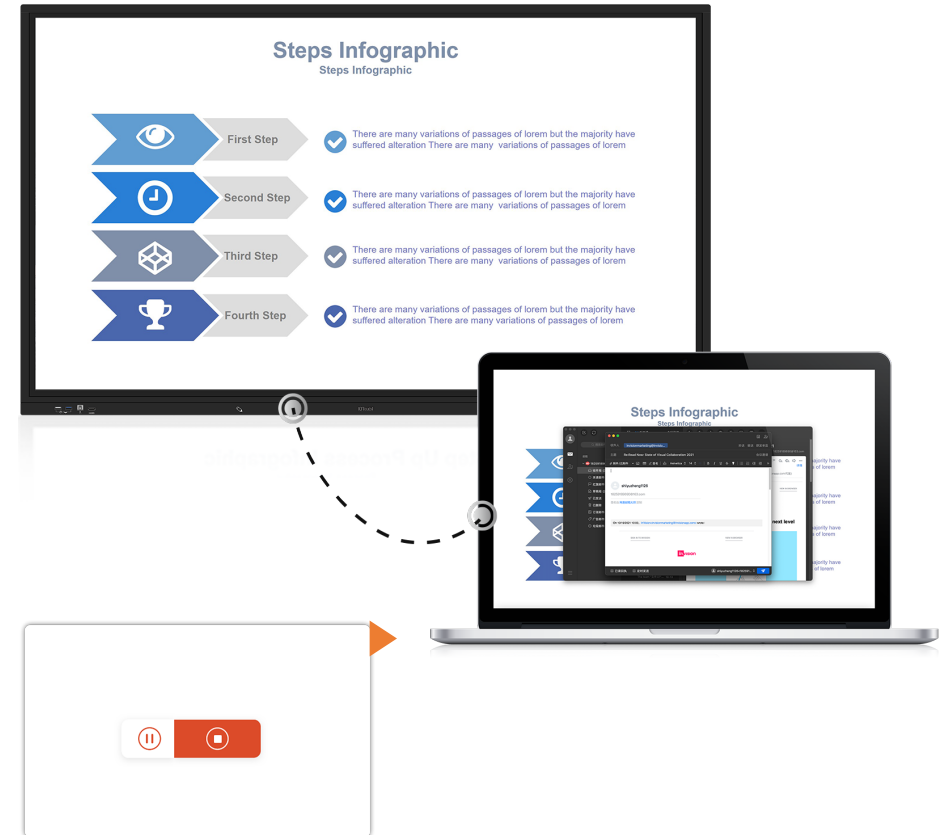

VERTEX

Privacy Protected

Reliable Encryption

IQShare adopts the Advanced Encryption Standard (AES) of security to prevent data leakage, which safeguards your privacy.

VERTEX

Extended screen

User can set the office display as an extended screen and directly drag the presentation content to the big screen without exposing the rest of his PC desktop.
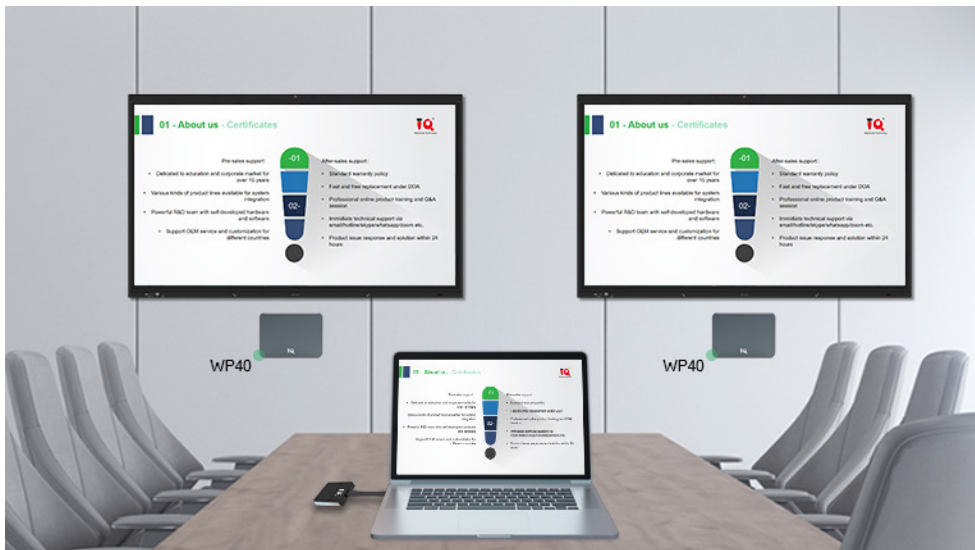

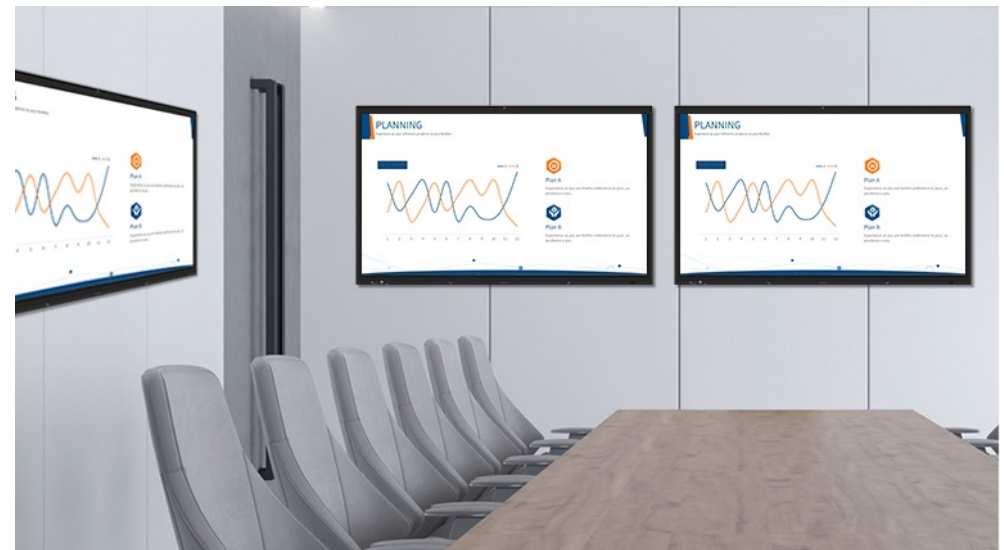

Freeze screen

No need to disconnect the screen sharing when you want to deal with some personal stuff on your device, just freeze the content being shared on the big screen.

VERTEX®

Maximum Visibility by Group Display

With multiple displays in a room, connecting each one of them to an IQShare box respectively and make them as one group, they will be able to receive the same content wirelessly at the same time.

(1) From one personal device to multiple displays

(2) From one display to the rest of the displays

VERTEX®

Requiring No Network and Installation

For guests who don't have access to the company network, they can share personal mobile devices wirelessly through IQShare Button. There is no requirement for network and software installations. The user-friendly design with one-click to share brings you a hassle-free experience.
